

### Amendments to the Claims

Please amend the listing of claims as follows:

1. (Currently Amended) Rubber material, ~~in particular~~ for wiper blades of windshield wipers or for motor vehicle tires, characterized in that it contains a copolymer based on isoprene and at least one further polymerizable monomer.
2. (Original) Rubber material according to Claim 1, characterized in that it contains a copolymer made of isoprene and butadiene.
3. (Currently Amended) Rubber material according to ~~one of Claims 1 or 2~~ Claim 1, characterized in that it also contains a filler material, and that the filler material is a mixture of furnace black and thermal black.
4. (Currently Amended) Rubber material according to ~~one of Claims 1 through 3~~ Claim 1, characterized in that the rubber material contains 20 – 150 parts by weight of a filler material in relation to 100 parts by weight of elastomer.
5. (Currently Amended) Rubber material according to ~~one of the preceding claims~~ Claim 1, characterized in that it contains a softening agent and/or mineral oil.
6. (Currently Amended) Rubber material according to ~~one of the preceding claims~~ Claim 1, characterized in that the rubber material also contains natural rubber and/or polybutadiene.
7. (Currently Amended) Wiper blade for windshield wipers, characterized by a rubber material according to ~~one of Claims 1 through 6~~ Claim 1.

8. (Original) Wiper blade according to Claim 7, characterized in that a segment (2), a wedge (3) and/or a wiper lip (4) of the wiper blade contain a copolymer made of isoprene and butadiene.
9. (Currently Amended) Wiper blade according to Claim ~~6~~<sup>or 7</sup>, characterized in that a top portion (1) and/or a segment (2) contain EPDM and/or CR.
10. (New) Rubber material according to Claim 7, characterized in that it contains a copolymer made of isoprene and butadiene.
11. (New) Rubber material according to Claim 7, characterized in that it also contains a filler material, and that the filler material is a mixture of furnace black and thermal black.
12. (New) Rubber material according to Claim 7, characterized in that the rubber material contains 20 – 150 parts by weight of a filler material in relation to 100 parts by weight of elastomer.
13. (New) Rubber material according to Claim 7, characterized in that it contains a softening agent and/or mineral oil.
14. (New) Rubber material according to Claim 7, characterized in that the rubber material also contains natural rubber and/or polybutadiene.
15. (New) Rubber material according to Claim 2, characterized in that it also contains a filler material, and that the filler material is a mixture of furnace black and thermal black.
16. (New) Rubber material according to Claim 15, characterized in that the rubber material contains 20 – 150 parts by weight of a filler material in relation to 100 parts by weight of elastomer.

17. (New) Rubber material according to Claim 16, characterized in that it contains a softening agent and/or mineral oil.
18. (New) Rubber material according to Claim 17, characterized in that the rubber material also contains natural rubber and/or polybutadiene.
